- ☐ Rule 14d-1(d) (Cross-Border Third-Party Tender Offer)
-
-

This Tender Offer Statement on Schedule TO relates solely to preliminary communications made before the commencement of a planned tender offer for all outstanding shares of common stock, par value \$0.001 per share, of Forte Biosciences, Inc., a Delaware corporation (“Forte”), by Avena Merger Sub Inc., a Delaware corporation (“Purchaser”) and a wholly owned subsidiary of argenx BV, a private company with limited liability (*besloten vennootschap*) organized under Belgian law (“argenx”) to be commenced pursuant to the Agreement and Plan of Merger, dated as of July 26, 2026, by and among Forte, argenx and Purchaser.

Additional Information and Where to Find It

The tender offer has not yet commenced. This document is for informational purposes only and is neither a recommendation, nor an offer to purchase nor a solicitation of an offer to sell any securities of Forte or any other entity, nor is it a substitute for any tender offer materials that argenx, Purchaser or Forte will file with the U.S. Securities and Exchange Commission (“SEC”). A solicitation and an offer to buy securities of Forte will be made only pursuant to an offer to purchase and related materials that argenx and Purchaser intend to file with the SEC. At the time the tender offer is commenced, argenx and Purchaser will file a Tender Offer Statement on Schedule TO, including an offer to purchase, a letter of transmittal and related documents, with the SEC, and Forte thereafter will file a Solicitation/Recommendation Statement on Schedule 14D-9 with the SEC with respect to the tender offer. SECURITYHOLDERS AND OTHER INVESTORS ARE URGED TO READ THE TENDER OFFER MATERIALS (INCLUDING AN OFFER TO PURCHASE, A RELATED LETTER OF TRANSMITTAL AND CERTAIN OTHER TENDER OFFER DOCUMENTS) AND THE SOLICITATION/RECOMMENDATION STATEMENT ON SCHEDULE 14D-9 REGARDING THE OFFER, AS THEY MAY BE AMENDED FROM TIME TO TIME, WHEN THEY BECOME AVAILABLE CAREFULLY AND IN THEIR ENTIRETY BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION THAT INVESTORS AND SECURITYHOLDERS SHOULD READ CAREFULLY BEFORE ANY DECISION IS MADE WITH RESPECT TO THE TENDER OFFER. The Tender Offer Statement on Schedule TO, the Solicitation/Recommendation Statement on Schedule 14D-9 and other related documents will be made available for free at the SEC’s website at <https://www.sec.gov/> and under the “SEC filings” section of argenx’s investor relations website at <https://argenx.com/investors/sec-filings>. The Solicitation/Recommendation Statement on Schedule 14D-9 and other related documents that Forte has filed with or furnished to the SEC will be made available for free at the SEC’s website at <https://www.sec.gov/> and under the “SEC Filings” section of Forte’s investor relations website at <https://www.fortebiorx.com/investor-relations/sec-filings/default.aspx>.

Forward Looking Statements

The contents of this Tender Offer Statement include statements that are, or may be deemed to be, “forward-looking statements.” These forward-looking statements generally can be identified by the use of forward-looking words, such as “aim”, “anticipate”, “aspire”, “believe”, “can”, “continue”, “could”, “estimate”, “expect”, “entail”, “forecast”, “future”, “goals”, “hope”, “intend”, “is designed to”, “likely”, “may”, “might”, “objective”, “plan”, “possible”, “potential”, “pursue”, “project”, “predict”, “seek”, “should”, “strategy”, “target”, “will” and other words and terms of similar meaning and expression, including in connection with any discussion of future operating or financial performance. By their nature, forward-looking statements involve risks and uncertainties and readers are cautioned that any such forward-looking statements are not guarantees of future performance. Forward-looking statements include, without limitation, statements regarding the tender offer, the merger and other related matters; prospective performance and opportunities; post-closing operations and the outlook for the businesses of Forte and argenx, including, without limitation, results from clinical trials, regulatory applications and related timelines, the ability of argenx to advance Forte’s product pipeline; and any assumptions underlying any of the foregoing. argenx’s actual results may differ materially from those predicted by the forward-looking statements as a result of various important factors, including but not limited to, uncertainties as to the timing of the tender offer and the merger; the risk that the tender offer or the merger may not be completed in a timely manner or at all; uncertainties as to the percentage of Forte’s stockholders tendering their shares in the tender offer; the possibility that competing offers or acquisition proposals for Forte will be made; the possibility that any or all of the various conditions to the consummation of the tender offer or the merger may not be satisfied or waived, including the failure to receive any required regulatory approvals from any applicable governmental entities (or any conditions, limitations or restrictions placed on such approvals); the occurrence of any event, change or other circumstance that could give rise to the termination of the merger agreement, including in circumstances that would require Forte to pay a termination fee or other expenses; the effect of the announcement or pendency of the transactions contemplated by the merger agreement on argenx’s business; the effect of the announcement or pendency of the transactions contemplated by the merger agreement on Forte’s business, its ability to retain and hire key personnel, its ability to maintain relationships with its suppliers and others with whom it does business, or its operating results and business generally; risks related to diverting management’s attention from argenx’s ongoing business operations; the risk that stockholder litigation in connection with the transactions contemplated by the merger agreement may result in significant costs of defense, indemnification and liability.

A further list and description of these and other risks, uncertainties, and factors that could cause actual results to differ materially from those referred to in the forward-looking statements can be found in argenx’s SEC filings and reports, including in argenx’s most recent annual report on Form 20-F filed with the SEC as well as subsequent filings and reports filed by argenx with the SEC. Given these risks and uncertainties, the reader is advised not to place undue reliance on such forward-looking statements. These forward-looking statements speak only as of the date of publication of this Tender Offer Statement. argenx undertakes no obligation to publicly update or revise the information in this Tender Offer Statement, including any forward-looking statements, except as may be required by law.

argenx to Acquire Forte Biosciences, Inc., Adding First-in-Class anti-CD122 Antibody, FB102, to its Immunology Pipeline

- *Transaction builds on argenx's prior strategic investment in Forte Biosciences and reflects a disciplined approach to accessing novel biology that can fuel long-term growth*
- *FB102 Phase 1b studies in vitiligo and celiac disease validate CD122 biology and pipeline-in-a-product potential to address diseases with high unmet need that have lacked innovation*
- *Acquisition strengthens argenx's innovative immunology portfolio with the addition of a differentiated approach to targeting pathogenic T-cell and NK-cell activity through CD122 biology*
- *argenx will host an investor conference call today at 8:00 a.m. ET to discuss the transaction*

July 27, 2026 – 7:00 AM CET

Amsterdam, the Netherlands and Dallas, Texas – argenx (Euronext & Nasdaq: ARGX), a global immunology innovation company, and **Forte Biosciences, Inc.** (Nasdaq: FBRX) today announced that the companies have entered into a definitive agreement under which argenx will acquire Forte Biosciences for \$77 per share in cash, representing a total equity value of approximately \$2.2 billion.

FB102, Forte Biosciences' lead program, expands argenx's portfolio of differentiated immunology medicines, adding a first-in-class anti-CD122 antibody with clinical proof-of-concept in vitiligo and celiac disease and potential to address multiple autoimmune diseases. The acquisition reflects argenx's disciplined approach to identifying and advancing breakthrough science for patients with the potential to redefine standards of care in diseases that have lacked meaningful innovation for decades.

"Our Vision 2030 strategy is well-defined and on track, and our discovery, development and commercialization engines are delivering real value for patients," said Karen Massey, Chief Executive Officer of argenx. "The acquisition of Forte Biosciences builds on the strength of that foundation and advances our ambition to be the leading immunology innovator of the future. The addition of FB102 to our portfolio aligns perfectly with the argenx playbook: compelling biology, strong clinical validation and broad potential to address patient need. I am grateful to the Forte Biosciences team for their outstanding work. Together, we look forward to unlocking the full potential of FB102 and accelerating its impact for patients."

"We are incredibly proud of what we have achieved in advancing FB102 through clinical development and firmly believe that argenx is the ideal strategic partner to unlock the full potential of this novel anti-CD122 antibody across a broad range of autoimmune diseases," said Paul A. Wagner, Ph.D., Chief Executive Officer and Chairperson of the Board of Forte Biosciences. "By combining FB102's promising clinical profile with argenx's proven development expertise, global reach and commercial capabilities, we have a unique opportunity to accelerate its development and maximize its impact for patients living with vitiligo, celiac disease, alopecia areata and other autoimmune conditions. We are excited about the future of FB102 and the potential to bring this innovative therapy to many more patients worldwide."

Forte Biosciences recently reported positive Phase 1b data in vitiligo, demonstrating statistically significant treatment benefit. In addition, positive FB102 Phase 1b data in celiac disease was shared last year, with Phase 2 data expected in the second half of this year. These studies were key drivers of argenx's decision to move from strategic investment to acquisition, providing clinical evidence in indications with significant unmet need and limited treatment options. Beyond celiac disease and vitiligo, FB102 has the potential to address alopecia areata and additional autoimmune diseases, supporting its profile as a potential pipeline-in-a-product opportunity.

FB102 complements argenx's existing portfolio of antibody-based programs, including efgartigimod, empasiprubart, adimanebart, and ARGX-121, as well as several additional early-stage molecules, by adding a mechanism focused on pathogenic T-cell and NK-cell activity, broadening the company's ability to pursue diseases driven by different dimensions of the immune system.

Transaction Terms

Under the terms of the merger agreement, argenx, through a wholly owned subsidiary, will commence a cash tender offer to acquire all of the outstanding shares of Forte Biosciences' common stock at a price of \$77 per share, representing a total equity value of approximately \$2.2 billion and a premium of approximately 86% to Forte Biosciences' volume-weighted average price (VWAP) since reporting positive Phase 1b data in vitiligo on July 9, 2026.

The consummation of the tender offer is subject to customary closing conditions, including the tender of at least a majority of the outstanding shares of Forte Biosciences, and the expiration or termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976. Following the successful completion of the tender offer, a wholly owned subsidiary of argenx will merge with Forte Biosciences and the outstanding Forte Biosciences shares not tendered in the tender offer will be converted into the right to receive the same \$77 per share in cash paid in the tender offer. The transaction is not subject to a financing condition and will be funded entirely from cash on hand.

The boards of directors of both companies have approved the transaction. The acquisition is expected to close in Q3 2026, subject to customary closing conditions.

argenx Conference Call Details

argenx will host an investor conference call and webcast today at 8:00 a.m. ET to discuss the transaction. A webcast of the conference call may be accessed on the Investors section of the argenx website at argenx.com/investors.

Participants can access the conference call by dialing 800-590-8290 (United States and Canada) or 240-690-8800 (International). Country specific dial-in numbers are listed below:

Belgium	32 2290 4635
France	33 172 001717
Netherlands	31 20 795 2683
United Kingdom	44 203 393 1560
Japan	81 3 4520 9761
Switzerland	41 43 210 51 68

Use the access code 3810049 to join the call. Please dial in 15 minutes prior to the live call. A replay of the webcast will be available on the argenx website.

Advisors

Goldman Sachs International is serving as exclusive financial advisor and Freshfields LLP is serving as legal advisor to argenx. Guggenheim Securities, LLC is serving as exclusive financial advisor and Wilson Sonsini Goodrich & Rosati, P.C. is serving as legal counsel to Forte Biosciences.

About argenx

argenx is a global immunology innovation company committed to improving the lives of people suffering from severe autoimmune diseases. Partnering with leading academic researchers through its Immunology Innovation Program (IIP), argenx aims to translate immunology breakthroughs into a world-class portfolio of novel antibody-based medicines. argenx developed and is commercializing the first approved neonatal Fc receptor (FcRn) blocker and is evaluating its broad potential in multiple serious autoimmune diseases while advancing several earlier stage experimental medicines within its therapeutic franchises. Forward Looking Statements of argenx and Forte Biosciences

The contents of this announcement include statements that are, or may be deemed to be, “forward-looking statements.” These forward-looking statements generally can be identified by the use of forward-looking words, such as “aim”, “anticipate”, “aspire”, “believe”, “can”, “continue”, “could”, “estimate”, “expect”, “entail”, “forecast”, “future”, “goals”, “hope”, “intend”, “is designed to”, “likely”, “may”, “might”, “objective”, “plan”, “possible”, “potential”, “pursue”, “project”, “predict”, “seek”, “should”, “strategy”, “target”, “will” and other words and terms of similar meaning and expression, including in connection with any discussion of future operating or financial performance. By their nature, forward-looking statements involve risks and uncertainties and readers are cautioned that any such forward-looking statements are not guarantees of future performance. Forward-looking statements include, without limitation, statements regarding the tender offer, the merger and other related matters; prospective performance and opportunities; post-closing operations and the outlook for the businesses of Forte Biosciences and argenx, including, without limitation, results from clinical trials, regulatory applications and related timelines and the ability of argenx to advance Forte Biosciences’ product pipeline; and any assumptions underlying any of the foregoing. The companies’ actual results may differ materially from those predicted by the forward-looking statements as a result of various important factors, including but not limited to, uncertainties as to the timing of the tender offer and the merger; the risk that the tender offer or the merger may not be completed in a timely manner or at all; uncertainties as to the percentage of Forte Biosciences’ stockholders tendering their shares in the tender offer; the possibility that competing offers or acquisition proposals for Forte Biosciences will be made; the possibility that any or all of the various conditions to the consummation of the tender offer or the merger may not be satisfied or waived, including the failure to receive any required regulatory approvals from any applicable governmental entities (or any conditions, limitations or restrictions placed on such approvals); the occurrence of any event, change or other circumstance that could give rise to the termination of the merger agreement, including in circumstances that would require Forte Biosciences to pay a termination fee or other expenses; the effect of the announcement or pendency of the transactions contemplated by the merger agreement on argenx’s business; the effect of the announcement or pendency of the transactions contemplated by the merger agreement on Forte Biosciences’ business, its ability to retain and hire key personnel, its ability to maintain relationships with its suppliers and others with whom it does business, or its operating results and business generally; risks related to diverting management’s attention from the companies’ ongoing business operations; the risk that stockholder litigation in connection with the transactions contemplated by the merger agreement may result in significant costs of defense, indemnification and liability.

A further list and description of these and other risks, uncertainties, and factors that could cause actual results to differ materially from those referred to in the forward-looking statements can be found in argenx’s SEC filings and reports, including in argenx’s most recent annual report on Form 20-F filed with the SEC as well as subsequent filings and reports filed by argenx with the SEC and Forte Biosciences’ most recent Annual Report on Form 10-K filed with the SEC as well as subsequent filings and reports filed by the companies with the SEC. Given these risks and uncertainties, the reader is advised not to place undue reliance on such forward-looking statements. These forward-looking statements speak only as of the date of publication of this press release. Neither argenx nor Forte Biosciences undertake any obligation to publicly update or revise the information in this press release, including any forward-looking statements, except as may be required by law.

We pursue
the best science
- wherever it
originates.

Forte Biosciences is a Strong Strategic Fit for argenx

FORTE BIOSCIENCES, INC

Why Forte

Novel Biology

FB102 is a first-in-class anti-CD122 antibody

Clinically Validated

Phase 1b POC data in vitiligo, celiac disease

Pipeline in a Product

Initial indications include vitiligo, celiac disease, and alopecia

Why argenx

Complementary to argenx immunology portfolio

Proven pipeline-in-a-product development and product presentation playbook

Experience in building, shaping and growing markets

Transaction Terms and Financial Overview

Transaction Summary

- \$2.2 billion USD at \$77/share in cash
- 86% premium to VWAP since Phase 1b vitiligo data (9-Jul-26)
- Expected to close in Q3 2026, subject to customary closing conditions

Financing

- Fully funded from argenx's existing cash balance

Disciplined capital deployment aligned with our priorities

- Maximize opportunity for VYVGART and build future of FcRn
- Advance our broad and growing pipeline
- Pursue differentiated biology to sustain growth trajectory

FB102 is a Differentiated Novel Anti-CD122 Antibody

FB102 blocks medium affinity IL-2 binding to CD122/CD132

IL-2 high affinity binding to CD25 and CD122/CD132 unaffected by FB102

FB102 blocks low affinity IL-15 binding to CD122/CD132

FB102 blocks medium affinity IL-15/IL15Rα binding to CD122/CD132

Lodolce 2002 Cytokine Growth Factor Rev. PMID 12401478
Ross 2018 Annu Rev Immunol. PMID 29677473

FB102 Biology Supports Potential to Treat Diseases Driven by Pathogenic T-cells

Blocks IL-2 and IL-15 driven proliferation and activation of pathogenic T cells and NK cells

Preserves IL-2 signaling in Tregs, maintaining immune regulation

Pipeline in-a-Product Opportunity*

Current Program	Status
Vitiligo	Phase 1b data recently published
Celiac Disease	Phase 2 data in 2H 2026
Alopecia Areata	Phase 1b data in 2H 2026

*Potential for additional indications

argenx

Positive Phase 1b Data in Vitiligo and Celiac Disease

Vitiligo Phase 1b Results

Statistical significance achieved by Day 64 and continued through 24 Weeks

...

We are excited to announce the acquisition of **Forte Biosciences, Inc.**, a significant milestone for **argenx** and an important step forward in delivering on our ambition to be the leading immunology innovator of the future, relentless in expanding our pipeline with multi-indication, first-in-class molecules.

argenx and Forte Biosciences, Inc. have entered into a definitive agreement under which argenx will acquire Forte Biosciences, Inc. for \$77 per share in cash, representing a total equity value of approximately \$2.2 billion.

FB102, Forte's lead program, expands argenx's portfolio of differentiated immunology medicines, adding a first-in-class anti-CD122 antibody with clinical proof-of-concept in vitiligo and celiac disease with potential to address multiple autoimmune diseases. The acquisition reflects argenx's disciplined approach to identifying and advancing breakthrough science for patients with the potential to redefine standards of care in diseases that have lacked meaningful innovation for decades.

"Our Vision 2030 strategy is well-defined and on track with our discovery, development and commercialization engines delivering real value for patients," said Karen Massey, Chief Executive Officer of argenx. "The acquisition of Forte Biosciences builds on the strength of that foundation and advances our ambition to be the leading immunology innovator of the future. The addition of FB102 to our portfolio aligns perfectly with the argenx playbook: compelling biology, strong clinical validation and broad potential to address patient need. I am grateful to the Forte team for their outstanding work. Together, we look forward to unlocking the full potential of FB102 and accelerating its impact for patients."

Today marks an exciting milestone for argenx as we announce our agreement to acquire Forte Biosciences, an important step forward in delivering on our ambition to be the leading immunology innovator of the future, relentless in expanding our pipeline with multi-indication, first-in-class molecules.

Our Vision 2030 strategy is well-defined and on track. The discovery, development and commercialization engines we've built are delivering real value for patients. The acquisition of Forte Biosciences builds on the strength of that foundation and advances our ambition to be the leading immunology innovator of the future. The addition of FB102 to our portfolio aligns perfectly with the argenx playbook: compelling biology, strong clinical validation and broad potential to address patient need.

Bringing Forte Biosciences into argenx is a natural extension of that journey.

FB102 is a compelling addition to our pipeline. With compelling biology, strong clinical validation in vitiligo and celiac disease, and the potential to address multiple autoimmune diseases, it represents exactly the kind of differentiated science we seek – innovative science with the opportunity to make a meaningful difference for patients.

What makes me especially proud is that this milestone reflects the strength of the foundation we have built, enabling us to identify transformative opportunities and move decisively when the science and the patient need align.

To everyone at Forte Biosciences: thank you for the innovation, dedication and expertise that brought FB102 to this point. We look forward to welcoming you to argenx and to building the next chapter together.

Most importantly, thank you to the argenx team. Your relentless focus on patients and your commitment to scientific excellence continue to fuel our momentum.

Together, we're expanding what's possible in immunology innovation – and we're just getting started.

argenx

argenx acquires Forte Biosciences

The acquisition adds FB102 to our immunology pipeline, further strengthening our portfolio of innovative therapies for autoimmune diseases.

The addition of **FB102** strengthens our ability to pursue more for patients.

Complement

With a new complement therapy in development, argenx is advancing its pipeline.

Broaden

argenx's ability to pursue more for patients, across a range of autoimmune diseases.

Advance

argenx's pipeline, further strengthening our portfolio of innovative therapies for autoimmune diseases.
